Part #35753

NEW!

Work Stand Clamp

The Steck Work Stand Clamp is a simple and inexpensive plier to clamp a car door or other panel to a work stand quickly and securely.

The Work Stand Clamp secures a car door to a work stand (X-frame) in seconds by clamping onto the inside frame of the door at the window opening. The welded ring of the clamp fits securely over the padded arm of the work stand (it can be adjusted to fit your stand). This method of clamping the door is far more ridged than current methods that are much more complex and expensive.

DOOR BELT MOULDING REMOVER

\$35.00

inc gst

Quickly Removes All Door Belt Mouldings.

Slide the powder coated tool downward between the window exterior and the door. The channel side of the tool should face the door. When the tool channel is below the belt moulding, push or pull the tool upward. The tool quickly removes the belt moulding without damage to the window or the moulding.
